Supplier RFP Response

Apex Systems

Fictional sample proposal — created for Agentic RFP Evaluation classroom project.

1. Executive Summary and Understanding

Strong technical design and security; higher price; moderate delivery schedule.

2. Proposed Solution

Proposes a modular cloud-ready platform with API gateway, event-driven integration, role-based access, encryption at rest and in transit, centralized logging, and documented disaster recovery. Integrations with procurement ERP and identity provider are described at a high level.

3. Implementation Plan, Team, and Milestones

12 weeks: discovery 2 weeks, architecture 2, configuration 3, integration 3, UAT 1, go-live 1. Delivery lead, solution architect, two engineers, security specialist, and QA analyst. Weekly steering committee and RAID log.

4. Commercial Proposal

Item	Price (USD)
Implementation	**$42,000**
Annual license	**$88,000**
Integration services	**$18,000**
Year 1 estimate	**$148,000**

5. Security, Compliance, and Risk Controls

Mentions encryption, SSO, RBAC, audit logs, vulnerability management, and annual penetration testing. Certifications and latest audit reports are not attached. Risks include ERP API dependency and customer delays in identity integration.

6. Support, Experience, and References

24x7 critical incident intake; P1 response within 1 hour. Three comparable enterprise deployments are claimed, with references available on request.

Evaluation note: claims in this synthetic proposal are illustrative and should be treated as supplier-provided evidence, not independently verified facts.
