# Supplier RFP Response

# Orbit Digital

**Fictional sample proposal** — created for Agentic RFP Evaluation classroom project.

## 1. Executive Summary and Understanding

Strong experience and references; vague integration plan; medium pricing.

## 2. Proposed Solution

Offers an established proposal analysis portal with configurable evaluation templates, reviewer collaboration, and exportable scorecards. Claims broad integration experience but does not provide a specific architecture or interface mapping for this procurement.

## 3. Implementation Plan, Team, and Milestones

10 weeks: kickoff 1 week, configuration 3, integration 3, testing 2, launch 1. Project manager, implementation consultant, and shared engineering resources. Dependencies and acceptance milestones are described at a summary level only.

## 4. Commercial Proposal

| Item | Price (USD) |
|---|---|
| **Implementation** | **$24,000** |
| **Annual license** | **$58,000** |
| **Integration services** | **$15,000** |
| **Year 1 estimate** | **$97,000** |

## 5. Security, Compliance, and Risk Controls

States encryption, SSO, role-based access, and periodic security testing. Compliance certifications, data location, detailed logging controls, and retention terms are not included in the response. Integration uncertainty is a key delivery risk.

## 6. Support, Experience, and References

24x5 support with P1 response within 2 hours. Four relevant customer projects and two reference contacts are claimed, subject to customer approval.

Evaluation note: claims in this synthetic proposal are illustrative and should be treated as supplier-provided evidence, not independently verified facts.
